

## **FX Concepts to Wind Down Investment Management Operations**

New York, October 10, 2013 - The Board of FX Concepts has announced that the company will wind down its investment management business over the next few weeks. Assets at the firm have dropped to levels that can no longer sustain the business. The Board has concluded that it is in the best interest of the firm's investors to conduct an orderly wind down of open positions, close its funds, and hand back any remaining mandates to clients. The firm remains in the newsletter and FX overlay advisory business and continues to investigate its options for the future.
